

Instructions for the Year 7 Google Classroom Page

This page is for the students and not for parents. We understand fully that as parents you want to monitor your child's communications and we encourage you to do this by monitoring their emails. As such parents should not join or comment on this platform.

The Google Classroom page will be used to:

- Give out general information and send reminders to students
- Provide links for learning.
- Ensure that they can contact their Form Tutor or Pastoral Lead should they need support.
- Provide any other support that your child may need.

Please help your child to do the following:

1. Create an email (preferably a Gmail)
2. Make sure their email address includes their name and not a nickname so that we can identify them
e.g. Gaynor Lester = glester@baysideschoolgibraltar.gi
3. Enter this link <https://classroom.google.com/> into your browser or download the Google Classroom app. You may be taken to a screen which says 'Get Started' which you need to press.
4. Enter their email and password if this is requested.
5. Click the + sign on the top right hand corner.
6. Click join class.
7. Enter this code: **b2pgyhs** and press join.

Your child should now have access to the page.
